

NOTICE TO RESIDENT

NOTICE OF WEEKEND WORK AND TEMPORARY INTERSECTION CLOSURE Fisher Avenue and Deer Park Road/Dynes Road

Dynes Road and Prince of Wales Drive
Integrated Road, Sewer, and Watermain Construction
ISD15-5035

August 2017

Dear Resident,

Construction work for the Dynes Road and Prince of Wales Drive Reconstruction Project is now underway. Part of this project includes the installation of a large diameter trunk storm sewer, as well as replacing the existing sanitary sewer and watermain within the Fisher Avenue and Deer Park Road/Dynes Road intersection. In order to facilitate the sewer and watermain installation, the City of Ottawa has approved the temporary closure of the Fisher Avenue and Deer Park Road/Dynes Road intersection from **August 25 to 28**.

Who: The Contractor, Greenbelt Construction Limited, is responsible to complete the work.

Why: The intersection closure is required to accommodate the Contractor's equipment, for protection of existing utilities, and for safety of the workers and the public.

What: The intersection of Fisher Avenue and Deer Park Road/Dynes Road will be closed in all directions to vehicular and bicycle traffic.

When: The intersection closure is scheduled to be in-place from **7 p.m. on Friday, August 25 to 6 a.m. on Monday, August 28**, weather permitting.

Where: Fisher Avenue and Deer Park Road/Dynes Road intersection.

Detours

Signed detours for vehicles and bicyclists will be in place during the duration of the intersection closure. A safe and accessible path of travel for all pedestrians will be maintained through and/or around the construction site. During the intersection closure, through traffic on Fisher Avenue will be detoured to Prince of Wales Drive using Meadowlands Drive and Baseline Road. Residents on Deer Park Road can access their community from Meadowlands Drive. Residents on Dynes Road can access their community from Arnot Road or Claymor Avenue.

OC Transpo

OC Transpo bus route 86 will be detoured during the planned intersection closure. Please refer to the OC Transpo website (www.octranspo.com) for information on the detour.

Construction Disruptions

The Contractor is assuming full responsibility for the construction work until the work is entirely complete. The Contractor will take every precaution necessary to minimize interruptions to the everyday life of your family and/or operation of your business, but as you can appreciate, there may be some inconvenience during the course of the work, such as delays and traffic detours when travelling through the construction zone, noise, dust and vibration. We would like to thank you in advance for your patience and co-operation.

Accessibility

Accessibility is an important consideration for the City. If you require special accommodations, please contact the undersigned. Provisions in the contract have been made in order to ensure Para Transpo vehicles are able to access the apartment buildings within the limits of this project.

NOTICE TO RESIDENT
