

# NOTICE TO RESIDENT

**Confederation Heights Bridge Renewal  
Contract No. CP000390**

## CONSTRUCTION COMMENCEMENT

June 2020

Dear Resident,

COVID-19 is an unprecedented situation and the City of Ottawa is committed to protecting people and the community.

The Province of Ontario has allowed certain businesses and workplaces to reopen, including all **municipal construction projects**, as long as they comply with strict measures for public health and safe operations. In addition to the City's ongoing work on critical infrastructure projects, we are now able to resume work on other construction projects that were paused due to the COVID-19 outbreak.

The City is working closely with the industry and complying with restrictions and recommendations provided by municipal, provincial and federal health officials, as well as the Ministry of Labour, Training and Skills Development.

This notice is to advise that construction on the Confederation Heights Bridge will be starting in June 2020. This work is being conducted to complete the renovation and renewal of the Confederation Heights Bridge on the Airport Parkway over Heron Road.

**What:** Work will involve concrete and expansion joint repairs on the bridge surface (Airport Parkway above Heron Road), concrete repairs on the bridge soffit and replacement of the bearing seats (under the Airport Parkway and within the LRT corridor).

**Why:** Due to age and condition of the existing infrastructure, work is required to rehabilitate the bridge and restore its lifespan.

**When:** Construction is planned to start in early June and is expected to be completed by fall 2020.

**Where:** In order to facilitate the work, the Airport Parkway, above Heron Road, will have long term lane closures in both directions in June and July. At least one lane in each direction will be maintained at all times.

Heron Road, under the Airport Parkway, will have intermittent nighttime lane closures in July and August. The lane closures will occur between 7 pm and 6 am. At least one lane in each direction will be maintained at all times.

**Who:** The City of Ottawa has retained the Contractor, Clearwater Structures, to complete the work.

### Accessibility

Accessibility is an important consideration for the City of Ottawa. The City makes every effort to provide access through and around construction sites. If you require special accommodation, please contact the project team listed below. Accessible formats and communication supports are available, upon request, at the following link: [www.ottawa.ca/accessibleformat](http://www.ottawa.ca/accessibleformat)

### Traffic Impacts

To accommodate the proposed construction, various lane reductions and/or detours will be required. Access to local businesses and private properties will be maintained throughout the construction period. Access for pedestrians and cyclists will be maintained.

### Impact on the Right of Way

The road construction may result in some disruption to part of the private property directly adjacent to the work. The City will reinstate all sections of landscaping, driveways and walkways that are disturbed by construction.

# NOTICE TO RESIDENT

As part of this Contract, the Contractor is assuming full responsibility for the construction work until it is entirely complete, as well as any damages to private property resulting from these construction activities. In the event of such occurrences, all claims for damages should be immediately reported both verbally and in writing to the Contractor and to the City's on-site Representative. This will ensure prompt notification of appropriate authorities to complete the claim investigations.

## Construction Disruptions

The Contractor will take every precaution to minimize interruptions to the everyday life of your family and/or operation of your business, but as you can appreciate, there may be some inconvenience during the course of the construction work, such as delays and traffic detours, parking restrictions, noise, dust and vibration. You may also feel vibrations due to heavy equipment operations. Vibrations from construction activities are quite common and rarely cause any problems. We would like to thank you for your patience and co-operation.

For construction activity hours of work, the City of Ottawa follows provincial requirements and the City's Noise By-law (2017-255).

## Contact Information

For any emergency outside normal working hours, please call the City at 3-1-1.

For general project information, please contact the City's Project Manager.

For construction related questions or concerns, please contact the Contractor Representative.
